

SOLUTIONS

NETPLUS

For special applications, NuVox NetPlus provides your business with the safety and security of unbundled network loops delivered directly from your local central office. These lines may be used for alarm circuits, elevator, fax or modem lines, and for redundancy purposes.

Features of NetPlus

Standard Features

- ▶ Touch Tone
- ▶ 900 Number Blocking
- ▶ Directory Assistance

Optional Features (Available at an additional charge)

- ▶ Caller ID
- ▶ Call Forward Remote Access
- ▶ Hunting
- ▶ Call Forward Busy
- ▶ Call Forward Universal
- ▶ Speed Dialing 30
- ▶ Call Forward Busy/Don't Answer
- ▶ Call Transfer Disconnect
- ▶ Three-Way Calling
- ▶ Call Forward Don't Answer
- ▶ Call Waiting
- ▶ Toll Restriction

Advantages of NetPlus

- ▶ **NetPlus creates Redundancy and Security.** If you have all your services on a single T1, order NetPlus Lines just in case the T1 service is interrupted by a power failure. This will ensure that you have a means to continue to have communications services.
- ▶ **NetPlus offers Flexibility.** Copper lines are also a great service for a remote location such as a guard station, lobby, ATM, or telephone closet.
