NUVOX ™

WEBHOSTING

NuVox WebHosting service is a "parking space" for your website. We offer a shared hosting solution, which means your website will reside on our secure servers that are maintained and monitored 24x7. And, you can make changes to your website content as often as you like from the NuVox web-based management tool. NuVox offers several WebHosting plans, so you can customize your WebHosting solution to your business needs.

Features of WebHosting

- ▸ Packages with 40 to 150MB storage space and 1,000 to 6,000MB/month data transfer
- ▸ CGI via PHP/Perl (Windows NT also supports ASP)
- ▸ Domain Name Registration
- ▸ SSL Security Certificate
- ▸ Microsoft FrontPage Support
- ▸ Database support (MySQL, MS SQL 7, and Access) and Cold Fusion available for larger websites

Advantages of WebHosting

- ▸ **WebHosting is Simple.** It's easy to establish and maintain your web presence.
- ▸ **WebHosting is Easy-to-Use.** Manage your account online through WebHosting Control Panel (24x7 access).
- ▸ **WebHosting is Comprehensive.** Analyze your website's performance—track the number of visitors to your website, where they came from, and what pages they viewed.
- ▸ **WebHosting is Reliable.** Your website is backed up daily to save your data.
